more

than

mix

2.

We put one into the blue, one into the green, one into the red, one into the yellow, and one into the purple. We use those colors and other colors that we mix.

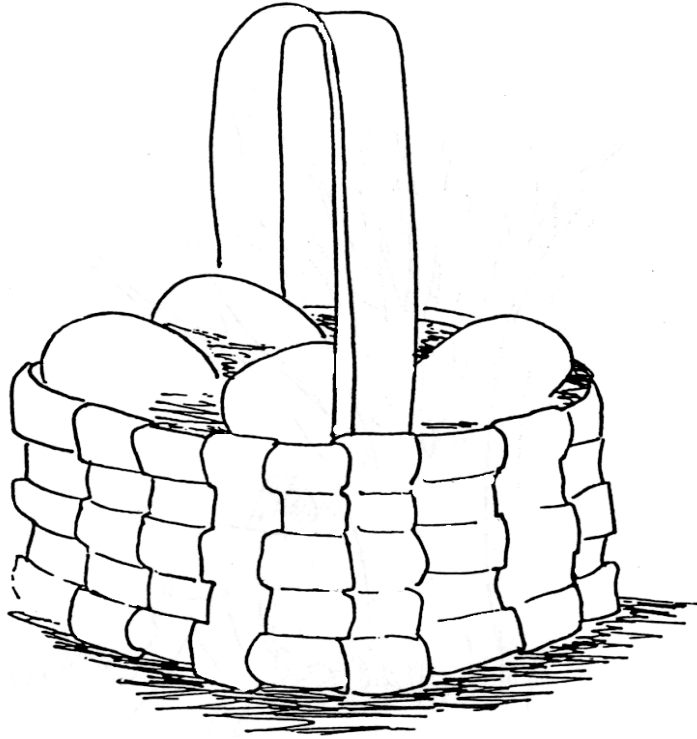

3.

We play with the eggs. We hide them and we look for them. First I hide them, and my brother and sister look for them.

4.

We make many eggs, coloring them one by one.

Sometimes we put oil into the colors, and put the eggs into more than one color. They look beautiful.

1.

At Easter we make Easter eggs. My mom helps my sister, my brother, and me. We put the eggs into the colors. We can make them all look very pretty.
